Annual Report 2020

About Life Science Journals

- ❑ Life Science Journals a bouquet of 26 Journals, is an authentic research publication which disseminates knowledge dealing with different areas of Life Science, Biotechnology and Research.
- ❑ Our vision is to promote network among its members, sponsoring appropriate educational activities such as workshops, lectures and seminars and to identify new developments in the field of biological sciences.
- ❑ Our mission is to promote the new scientific knowledge that has emerged from recent advances in both basic and applied biological sciences in Agriculture, Animal sciences, Forestry and all other disciplines of Biological Sciences.

DOI Services

- ❑ You may **avail DOI number** for your already published work with Nursing Journals or for the manuscript which is under process for the upcoming issue.
- ❑ **Significance of DOI**, it enhances finding the article rapidly and fills in as the paper's unique area. If you search the Google scholar for a particular title of an article, one may discover a few articles that share similar phrases of the title. On the other hand, the DOI of each archive is unique regardless of whether the titles of several documents are extremely close to each other.
